

**The freedom to create**

Intricate and accurate cutting, creasing, and perforating gives you the ability to create endless amounts of excitingly unique products. Working seamlessly with well-known design packages such as Adobe Illustrator, VeloBlade Nexus will fit comfortably within your workflow and take your operations to the next level.

**Rotating bed for roll fed and sheet fed production**

Make your business more productive by automating your workflow. Whether you're working with sheets or from a roll, VeloBlade Nexus will take control and complete the job automatically. Giving you and your team more time to work on other jobs. You can even work reel-to-reel.

**Automatic cut depth setting**

ZipCore software will even detect the depth of material you are cutting to give you the cleanest of finishes and ensure the quality of the cutting bed is protected and preserved. With a cutting depth of 25mm, this range opens up a new world of possibilities enabling you to work with a vast array of substrates including; dibond, MDF, fabrics, and acrylic, whilst ensuring the perfect cut depth consistently.

Starting from sizes 1800mm x 1600mm, the VeloBlade Nexus is a range of wide-format digital die-cutting systems that operate seamlessly with substrates up to 25mm in thickness. Including; dibond, MDF, fabrics, acrylic, and much more! Opening up a vast array of markets for your business to operate in and enabling you to create endless amounts of products with exciting varying materials.

**OPTIONAL EXTRAS**

What is Zip Core Packaging Suite?

Zip Core Packaging Suite is a CAD/CAM packaging software that has been created to optimise every aspect of packaging design from start to finish.

Our software provides businesses with a wide range of tools that expedite the everyday jobs of packaging designers, graphic designers and salespeople involved in the creation and production of packaging. This results in jobs being produced at a much faster rate. There are endless packaging templates to choose from within our library of designs, giving you an infinite choice of packaging opportunities. There are two bundles to choose from.

Compatible with the VeloBlade Nexus and VeloBlade Volta range.

Benefits of Zip Core Packaging Software:

- CAD/CAM Packaging Software
- Integrated with Adobe Illustrator
- Available with PC and MAC
- Replaces time-consuming sample making
- Endless library of packaging templates including ECMA, FEFCO, POP & POS Displays
- Compatible with Veloblade Nexus and Veloblade Volta
- Saving you both time and money

**ZIP CORE**  
PACKAGING SUITE

"Zip Core Packaging Suite offers an infinite choice of packaging opportunities."

Compatible with both desktop and cloud solutions, our software is integrated with Adobe® Illustrator® meaning you can apply graphics to your packaging designs whilst being able to view a 3D model of the structure before production.

"Zip Core Packaging Suite enhances the use of your digital die-cutting systems."
